

You have an awesome responsibility & accountability as the "police" of broadcast entities to ensure fair and equal media coverage.

With the future of our country's democracy -- not to mention those of our brave soldiers -- on the line, your priority should be on holding broadcasters to a standard of fairplay and serving the community...not a political party.

The Vietnam War is 30 years old, and still does touch many people in one way or another. Please do not allow Sinclair Broadcasting to run this partisan anti-Kerry smear "Stolen Honor" piece. It's not fair, equal with no standard of balanced journalism. It is not "news"...it is political propaganda. It serves one political party only - and does not serve the public's need for thorough current news and analysis and non-parisan news reporting.. "Stolen Honor" should not be allowed to go out on the free airways of Sinclair Broadcasting without immediately following or preceeding it with a pro-Kerry piece such as "Going Upriver"

I have joined forces with the thousands of others who will now go to work applying pressure to your Commission to stop the un-Democratic preemption of regular programming to this thinly-veiled smear campaign against Senator Kerry's patriotic actions 30 years ago.

There are lives on the line here...you should be held accountable if you allow this slime to go out on the airways unchallenged and without recourse.

As a proud American & Christian woman I am disgusted and outraged by this.
